Internetworking Indonesia Journal

The Indonesian Journal of ICT and Internet Development
ISSN: 1942-9703

Internetworking Indonesia is a semi-annual electronic journal devoted to the timely study of the Information and Communication Technology (ICT) and Internet development in Indonesia. The journal seeks high-quality manuscripts on the challenges and opportunities presented by information technology and the Internet in Indonesia.

Journal mailing address: Internetworking Indonesia Journal, PO Box 397110 MIT Station, Cambridge, MA 02139, USA.

Co-Editors

Thomas Hardjono, PhD
(MIT Kerberos Consortium, MIT, USA)

Budi Rahardjo, PhD
(ITB, Indonesia)

Kuncoro Wastuwibowo, MSc
(PT. Telkom, Indonesia)

Editorial Advisory Board

Prof. Edy Tri Baskoro, PhD (ITB, Indonesia)

Mark Baugher, MA (Cisco Systems, USA)

Lakshminath Dondeti, PhD (Qualcomm, USA)

Prof. Svein Knapskog, PhD (NTNU, Norway)

Prof. Merlyna Lim, PhD (Arizona State University, USA)

Prof. Bambang Parmanto, PhD (University of Pittsburgh, USA)

Prof. Wishnu Prasetya, PhD (Utrecht University, The Netherlands)

Prof. Jennifer Seberry, PhD (University of Wollongong, Australia)

Prof. Willy Susilo, PhD (University of Wollongong, Australia)

Prof. David Taniar, PhD (Monash University, Australia)

Focus & Scope: The Internetworking Indonesia Journal aims to become the foremost publication for practitioners, teachers, researchers and policy makers to share their knowledge and experience in the design, development, implementation, and the management of ICT and the Internet in Indonesia.

Topics of Interest: The journal welcomes and strongly encourages submissions based on interdisciplinary approaches focusing on ICT & Internet development and its related aspects in the Indonesian context. These include (but not limited to) information technology, communications technology, computer sciences, electrical engineering, and the broader social studies regarding ICT and Internet development in Indonesia. A list of topics can be found on the journal website at www.InternetworkingIndonesia.org.

Open Access Publication Policy: The Internetworking Indonesia Journal provides open access to all of its content on the principle that making research freely available to the public supports a greater global exchange of knowledge. This follows the philosophy of the Open Journal Systems (see the Public Knowledge Project at pkp.sfu.ca). The journal will be published electronically and there are no subscription fees. Such access is associated with increased readership and increased citation of an author's work.

Manuscript Language: The Internetworking Indonesia Journal accepts and publishes papers in Bahasa Indonesia and English.

Manuscript Submission: Manuscripts should be submitted according to the IEEE Guide for authors, and will be refereed in the standard way. Manuscript pages should not exceed 7 pages of the IEEE 2-column format preferably in a MS-Word file format. Links to the IEEE style files can be found at www.InternetworkingIndonesia.org. Manuscripts submitted to Internetworking Indonesia must not have been previously published or committed to another publisher under a copyright transfer agreement, and must not be under consideration by another journal. Authors of accepted papers are responsible for the Camera Ready Copy (CRC) in the IEEE 2-column format (delivered in an MS-Word file). Authors are advised that no revisions of the manuscript can be made after acceptance by the Editor for publication. The benefits of this procedure are many, with speed and accuracy being the most obvious. We look forward to working with your electronic submission which will allow us to serve you more efficiently. Please email manuscripts or inquiries to the editors at the following address: editor@InternetworkingIndonesia.org.

Submission Guidelines: Internetworking Indonesia accepts a variety of manuscripts in either English or Bahasa Indonesia. Please review the descriptions below and identify the submission type best suited to your intended submission:

- *Research Papers:* Research papers report on results emanating from research projects, both theoretical and practical in nature.
- *Short papers:* Short research papers provide an introduction to new developments or advances regarding on-going work.
- *Policy Viewpoints:* Policy Viewpoints explore competing perspectives in the Indonesian policy debate that are informed by academic research.
- *Teaching Innovation:* Teaching Innovation papers explore creative uses of information technology tools and the Internet to improve learning and education in Indonesia.
- *Book Reviews:* A review of a book, or other book-length document, such as a government report or foundation report.

About the Internetworking Indonesia Journal

The Internetworking Indonesia Journal (IJ) was borne out of the need to address the lack of an Indonesia-wide independent academic and professional journal covering the broad area of Information and Communication Technology (ICT) and Internet development in Indonesia.

The broad aims of the Internetworking Indonesia Journal (IJ) are thus as follows:

- **Provide an Indonesia-wide independent journal on ICT:** The IJ seeks to be an Indonesia-wide journal that is independent from any specific institution in Indonesia (such as universities and government bodies). Currently in Indonesia there are a number of university-issued journals that publish only papers from those respective universities. Often these university journals experience difficulty in maintaining sustainability due to the limited number of internally sourced papers. Additionally, most of these university-issued journals do not have an independent review and advisory board, and most do not have referees and reviewers from the international community.
- **Provide a publishing venue for graduate students:** The IJ seeks also to be a venue for publication for graduate students (i.e. Masters/S2 and PhD/S3 students) as well as working academics in the broad field of ICT. This includes graduate students from Indonesian universities and those studying abroad. The IJ provides an avenue for these students to publish their papers to a journal that is international in its reviewer scope and in its advisory board.
- **Improve the quality of research & publications on ICT in Indonesia:** One of the long term goals of the IJ is to promote research on ICT and Internet development in Indonesia, and over time to improve the quality of academic and technical publications from the Indonesian ICT community. Additionally, the IJ journal seeks also to be the main publication venue for various authors worldwide whose interest include Indonesia and its growing area of information and communication technology.
- **Provide access to academics and professionals overseas:** The Editorial Advisory Board (EAB) of the IJ is intentionally composed of international academics and professionals, as well as those from Indonesia. The aim here is to provide Indonesian authors with access to international academics and professionals within the context of a publication that is aware of the issues facing a developing nation. Similarly, the IJ seeks to provide readers worldwide with easy access to information regarding ICT and Internet development in Indonesia.
- **Promote the culture of writing and authorship:** The IJ seeks to promote the culture of writing and of excellent authorship in Indonesia within the broad area of ICT. It is for this reason that the IJ is bilingual in that it accepts and publishes papers in either English or Bahasa Indonesia. Furthermore, the availability of an Indonesia-wide journal with an international advisory board may provide an incentive and impetus for young academics, students and professionals in Indonesia to develop writing skills appropriate for a journal. This in-turn may encourage and train them to subsequently publish in other international journals.
